

WITH YOUR HELP,

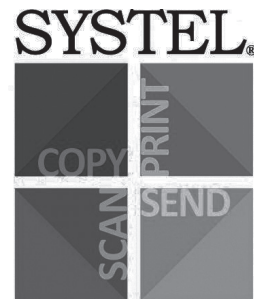

the “Out of Sight” Dining Event
by the Vision Resource Center will:

- ◆ Provide independent skills training, cultural and social interaction to over 200 adults and children who are blind or visually impaired.
- ◆ Provide over 22,000 miles of transportation to keep the blind and visually impaired active in our community.
- ◆ Enhance the lives of our blind and visually impaired and their family members. Our life skills classes help provide a safe space for our clients to develop necessary life skills such as labeling items in the home, basic housekeeping, money management, and to even develop a (green thumb) in gardening skills.
